

WAREWASHING

EDITION 22-23

 01279 876 500  Mach.uk.com

ABOUT MACH

Mach are one of Europe's leading commercial warewasher manufacturers. Founded in Italy in 1988, they have been supplying the UK market with quality glasswashing and dishwashing equipment for over 20 years. During this time, they have built a long-standing reputation for high build quality, ultimate durability and excellent wash results.

Mach have invested heavily in research, manufacturing and testing facilities and their state-of-the-art plant in Italy utilises the latest robotic equipment and autonomous principles to ensure each machine is built to the highest of quality standards. The facility is fully compliant with the internationally recognised ISO 9001 quality management standard and all machines are fully tested and inspected before shipping.

Mach UK offers premium service and distribution of all Mach warewashers to the UK market. All products are specifically designed for the local requirements, including certification with UK Waterboard & Regulatory Advisory Service (WRAS).

As standard, machines are backed by an extensive 3-year parts commercial warranty, an optional labour warranty is also available. They can be purchased as stand-alone products, or as part of our extensive washroom design & installation service.

Mach is committed to quality and high performance with all its warewashers. The principles of excellent build quality, ultimate reliability, simplicity and ease of use are present in all Mach products, from small undercounter glasswashers and commercial dishwashers, through to large pass-throughs, utensil washers and rack conveyor systems.

Mach machines are designed to be simple to operate and easy to maintain. All wash tanks and machine bodies are finished in the highest quality AISI 304 stainless steel with an attractive scotch-brite finish. The best quality components also ensure Mach delivers on its reputation for reliability and that is why Mach choose to only use stainless-steel components in their machines.

Across all models, moving components and wash tank accessories are manufactured in stainless steel, including wash arms, rinse arms, plugs, jets and filters. Mach also manufacture all internal boilers in stainless steel and use armoured heating elements to guarantee longevity.

All products are manufactured in full compliance with WRAS and CE regulations, ISO standards and our highest customer expectations in mind. A promise of quality that is backed by a 3-year commercial warranty as standard. For further details see page 29.

					Pumped	£2,275

KEY FEATURES

All Stainless Steel Components

AISI304 stainless-steel components including armoured stainless steel elements, stainless steel boiler, filters, hinges, wash arms, rinse arms, plugs and jets.

Outstanding Wash Results

High power wash pump with upper and lower wash and rinse arms (400 and 500 models). Guaranteed wash at 60°C with hygienic rinse at 85°C.

Fast Heat Up & Recovery

Independent boiler and tank heating with armoured stainless steel elements and temperature indicator lights.

3 Year Parts Warranty

Option to add labour warranty with extensive UK service network, quick callout times and spare parts held in stock.

Fully Automatic

Electronic detergent and rinse aid dispensers as standard. Fixed 150 second wash cycle on 350/400 models. Selectable 120 or 180 seconds on 500 models.

13 Amp or 30 Amp

All models available with 13A UK Plug. 500mm model also available in high power model with 30A 1 Phase (hard wired) power supply.

Energy Efficient

Insulated stainless steel boiler and double-skinned stainless steel door to reduce energy consumption, noise and prevent heat loss to environment.

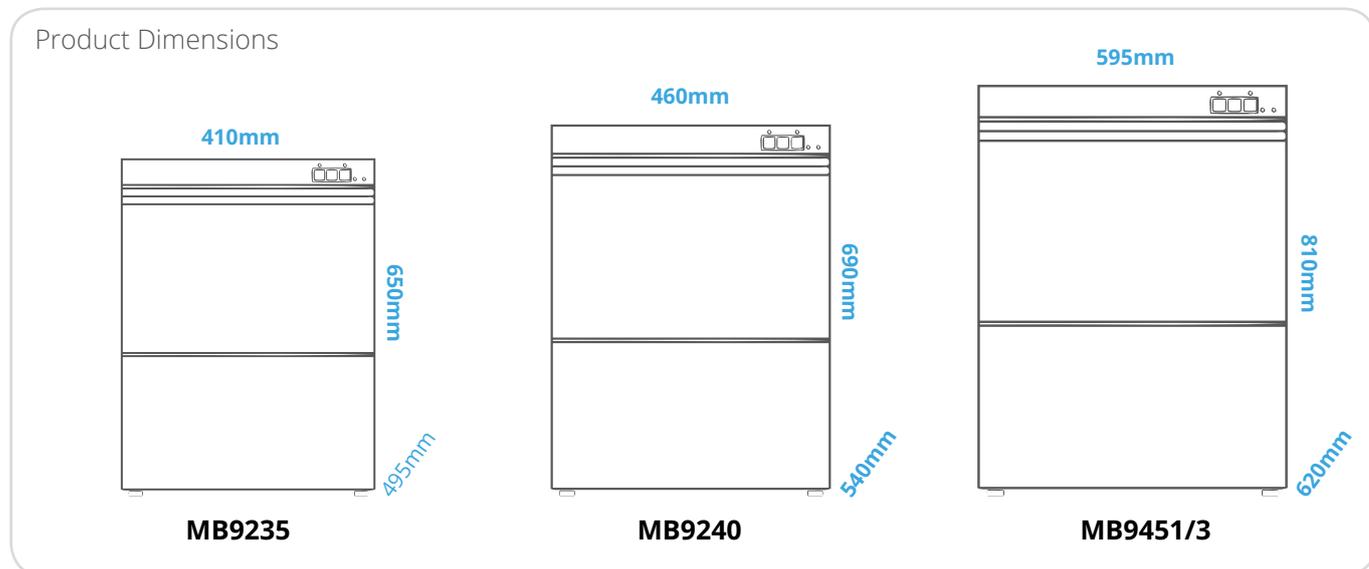

Optional Drain Pump

Optional drain pumps available on all models, ideal for installations where drainage is above ground height.

Max Entry

Optional Break Tank

All our dishwashers are supplied with a WRAS Type B Air Gap as standard for compliance in catering & hospitality.

An optional stainless steel internal WRAS Type A Air Gap is available on 500mm models to ensure compliance in high risk areas such as schools, hospitals, nurseries and care homes.

A break tank ensures that in the event of a fault, dirty water cannot backfill into the mains supply and cause a hazard.

Deluxe Range

Model	Description	Dimensions	Entry	Power	Waste	Price
MS9553PS-GW	500mm Deluxe Glasswasher	600 x 620 x 820mm	325mm	30 Amp	Pumped	£2,795
MS9553PS-DW	500mm Deluxe Dishwasher	600 x 620 x 820mm	380mm	30 Amp	Pumped	£2,795

Deluxe Models

Premium dishwashers & glasswashers with fully insulated double wall construction and increased boiler power for higher thermal performance.

In addition, Mach deluxe machines feature full width stainless steel wash tank filters and front-access to the drain pump mechanism for easy maintenance and cleaning.

Water levels are also designed to sit below the tank filter line for improved health and safety. This makes them the ideal model for large restaurant chains and contract customers.

KEY FEATURES

AISI 304 **All Stainless Steel Components**
 Pressed stainless steel tank with rounded corners and all components in AISI 304 stainless steel including elements, boiler, filters, hinges, wash arms, rinse arms, plugs and jets.

Outstanding Wash Results
 High power wash pump with upper and lower wash and rinse arms. Guaranteed wash at 60°C with hygienic rinse at 85°C.

Improved Heat Up & Recovery
 High power 4.5kW boiler with 2.5kW independent wash tank heating for industry leading heat up and recovery times.

3 Year Parts Warranty
 Option to add labour warranty with extensive UK service network, quick callout times and spare parts held in stock.

Fully Automatic
 Selectable 120 or 180 seconds wash cycle with integrated electronic detergent and rinse aid dispensers. Drain pump as standard.

Full Width Tank Filters
 Full width tank filter finished in stainless steel with rounded corners and situated above the water line for easier cleaning and maintenance.

Double Wall Construction
 Full double wall stainless steel construction for improved sound insulation, better thermal performance and less energy consumption.

Front Access To Drain Pump
 Drain pump filter access from front panel to prevent nuisance warranty callouts and prevent unnecessary breakdowns.

Passthrough Dishwashers

Tabling Options

Suitable for straight through or corner sited installations. Wide range of tabling options including entry and exit sinks available on request.

Model	Description	Dimensions	Entry	Power	Waste	Price
MS/9103	Passthrough Dishwasher 500mm	635 x 735 x 1460mm	440mm	3 Phase	Gravity	£3,445
					Pumped	£3,575
MS/9103BT	Passthrough Dishwasher 500mm + Type A Air Gap	635 x 735 x 1460mm	440mm	3 Phase	Gravity	£3,672.50
					Pumped	£3,802.50

KEY FEATURES

All Stainless Steel Components

AISI304 stainless-steel components including armoured stainless steel elements, stainless steel boiler, filters, hinges, wash arms, rinse arms, plugs and jets.

Optional Break Tank

Optional stainless steel internal Type A air gap for compliance in high risk areas such as care homes, schools and nurseries.

Selectable Wash Cycles

Selectable 75 or 180 second wash cycles with completely automatic operation. Integrated electronic detergent and rinse aid dispensers.

Energy Efficient

Insulated stainless steel boiler with double-skinned stainless steel hood to reduce energy consumption, noise and prevent heat loss to environment.

Full Width Wash Tank Filter

Full stainless steel wash tank filter protects pumps and components from blockages caused by food debris, straws and broken glass.

3 Year Parts Warranty

Option to add labour with extensive UK service network, quick callout times and spare parts held in stock.

3 Phase Power

High power 11.5kW boiler for rapid heat up and recovery. Optional 1 phase downgrade to 6kW boiler is available for sites without 3 phase.

Optional Drain Pump

Optional drain pumps available on all models, ideal for installations where drainage is above ground height.

Deluxe Passthrough

34%
ENERGY SAVING
ON RC MODELS

Model	Description	Dimensions	Entry	Power	Waste	Price
MS/9120AT	Deluxe Passthrough	635 x 735 x 1460mm	440mm	3 Phase	Pumped	£4,322.50

Up To 34% Energy Saving

RC models feature an innovative new internal radiator system and an atmospheric boiler. This system utilises waste heat from the wash tank to pre-heat cold inlet water, improving recovery times, reducing energy consumption by up to 34% and making for a more pleasant working environment by preventing steam ingress to the surrounding environment.

KEY FEATURES

AISI 304 All Stainless Steel Components
 AISI304 stainless-steel components including armoured stainless steel elements, stainless steel boiler, filters, hinges, wash arms, rinse arms, plugs and jets.

DW Double Wall Stainless Steel
 Full double wall stainless steel construction for improved sound insulation, better thermal performance and less energy consumption.

5 Selectable Wash Cycles
 Completely automatic operation with 5 cycles between 90 and 270 seconds. Integrated electronic detergent and rinse aid dispensers.

Partial Water Change
 Atmospheric boiler with partial water change on each cycle. Complete water change every 7 cycles. Maintains highest levels of hygiene.

Rinse Booster Pump
 High power secondary pump with soft washing start protects fragile items and improves wash results.

Temperature Display
 Digital display of both wash and rinse temperatures for the highest levels of health & safety.

3 Year Parts Warranty
 Option to add labour warranty with extensive UK service network, quick callout times and all spare parts held in stock.

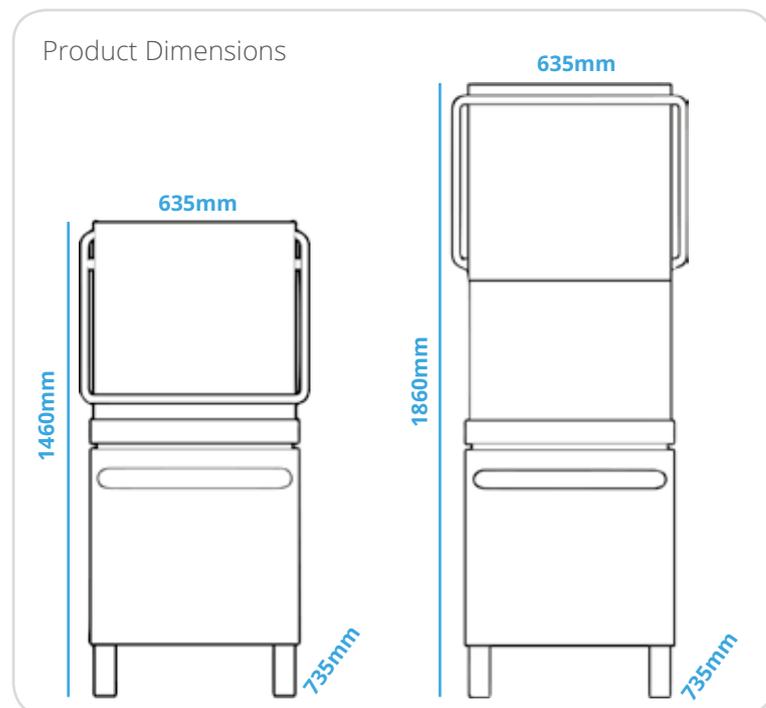

Front Access To Drain Pump
 Drain pump as standard with filter access from front panel to prevent nuisance warranty callouts and prevent unnecessary breakdowns.

For Full Specifications
[See Page 26](#)

KEY FEATURES

- 
50cm Clear Entry Height
 Increased hood clearance allows for washing of items up to 50cm tall, making it perfect for large kitchen utensils, pots and pans.
- 
Fits Gastronorm Trays
 Full 630 x 630mm basket designed for washing the largest of utensils, up to a standard gastronorm tray or bakery tray.
- 
Fully Programmable
 Fully programable digital interface with adjustable wash and rinse timings. Onboard diagnostics and error reporting for ease of maintenance.
- 
Partial Water Change
 Atmospheric boiler with partial water change on each cycle. Complete water change every 7 cycles. Maintains highest levels of hygiene.

- 
Rinse Booster Pump
 High power secondary pump with soft washing start protects fragile items and improves wash results.
- 
Temperature Display
 Digital display of both wash and rinse temperatures for the highest levels of health & safety.
- 
3 Year Parts Warranty
 Option to add labour with extensive UK service network, quick callout times and all spare parts held in stock.
- 
Double Wall Stainless Steel
 Full double wall stainless steel construction with all stainless steel components including elements, boiler, filters, hinges, wash arms, rinse arms, plugs and jets.

Utensil Washers

FITS GASTRONORM CONTAINERS!

Designed as a universal machine to meet all the dishwashing and utensil washing requirements of a commercial kitchen, the UT850.23AP will fit anywhere a normal undercounter dishwasher would.

Featuring a remarkable load capacity, it is capable of washing standard 60x40cm baking trays and gastronorm containers. It is also ideally suited for easy installation into existing washrooms, sitting comfortably underneath standard single or double bowl sink tabling.

As standard the UT850.23AP includes a 500 x 500mm basket with a special insert for trays, a standard 500mm dishwasher basket for miscellaneous items and two cutlery inserts.

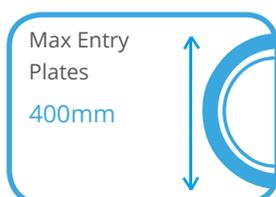

Model	Description	Dimensions	Max Entry	Power	Waste	Price
UT850.23AP	Undercounter Utensil Washer 500mm Basket	600 x 690 x 860mm	600 x 400mm	3 Phase	Pumped	£4,169.75
				1 Phase	Pumped	£4,169.75

KEY FEATURES

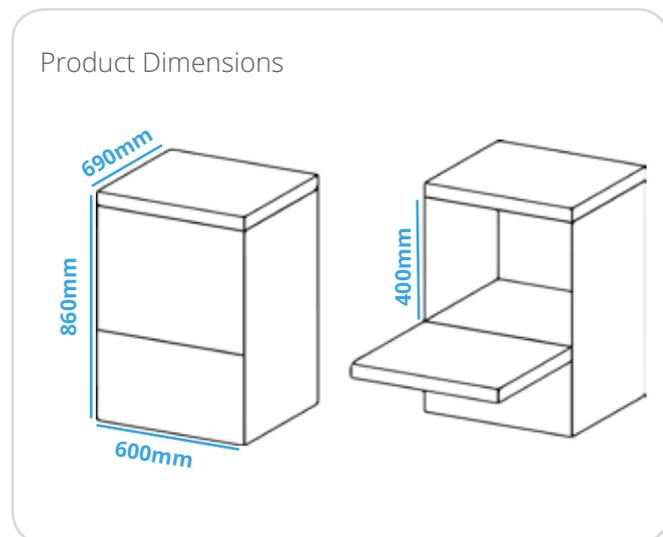

- 
Universal 500mm Basket
 Accepts a standard 50cm dishwasher basket for universal integration with existing systems.
- 
Fits Gastronorm Trays
 Utilising specialist tray basket and deeper cabinet opening, unit can wash up to 600 x 400mm bakery trays or gastronorm pans.
- 
Fully Automatic Operation
 Selectable 60, 90, 120, 180 or 360 seconds wash cycle with integrated electronic detergent & rinse aid dispensers as standard.
- 
Front Access To Drain Pump
 Drain pump as standard with filter access from front panel to prevent nuisance warranty callouts and prevent unnecessary breakdowns.

- 
High Power Pumps
 High power 0.75kw wash pump with additional 0.3kW rinse booster pump to meet the most intensive washing requirements.
- 
All Stainless Steel Components
 AISI304 stainless-steel components including armoured stainless steel elements, stainless steel boiler, filters, hinges, wash arms, rinse arms, plugs and jets.
- 
3 Year Parts Warranty
 Option to add labour with extensive UK service network, quick callout times and all spare parts held in stock.
- 
Compact Dimensions
 With compact overall dimensions the UT850.23AP is designed to fit well under standard commercial sinks and existing washroom tabling.

Utensil Washers

Model	Description	Dimensions	Entry	Power	Waste	Price
UT850.23AP	Utensil Washer 500 x 500mm Basket	600 x 695 x 1430mm	600 x 600mm	3 Phase	Gravity	£4,870

Designed as a universal but compact utensil washer for a range of applications including laboratories, bakeries, manufacturing, commercial kitchens and food production. Versatile with large clear entry height for pots, baking pans, utensils and gastronorm containers. Featuring a standard 50 x 50mm basket it can easily wash 60 x 40 standard baking trays and any objects up to 60cm height.

With all the standard features of the Mach Deluxe range of dishwashers, the UT850.23AP includes full stainless steel construction, stainless steel components and guaranteed reliability with a 3 year parts warranty.

Supplied with one 50x050 insert for trays, 50 x 50 basket for miscellaneous items and two cutlery holders.

KEY FEATURES

Universal 500mm Basket

Accepts a standard 50cm dishwasher basket for universal integration with existing systems.

High Power Pumps

High power 0.75kw wash pump with additional 0.3kW rinse booster pump to meet the most intensive washing requirements.

60cm Clear Entry Height

Increased door height makes the machine highly versatile for a range of applications across commercial kitchens and laboratories.

All Stainless Steel Components

AISI304 stainless steel components including armoured stainless steel elements, stainless steel boiler, filters, hinges, wash arms, rinse arms, plugs and jets.

Fits Gastronorm Trays

Utilising specialist tray basket and deeper cabinet opening, unit can wash up to 600 x 400mm bakery trays or gastronorm pans.

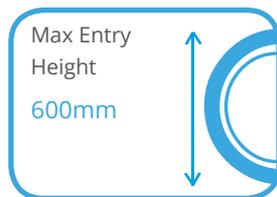

3 Year Parts Warranty

Option to add labour with extensive UK service network, quick callout times and all spare parts held in stock.

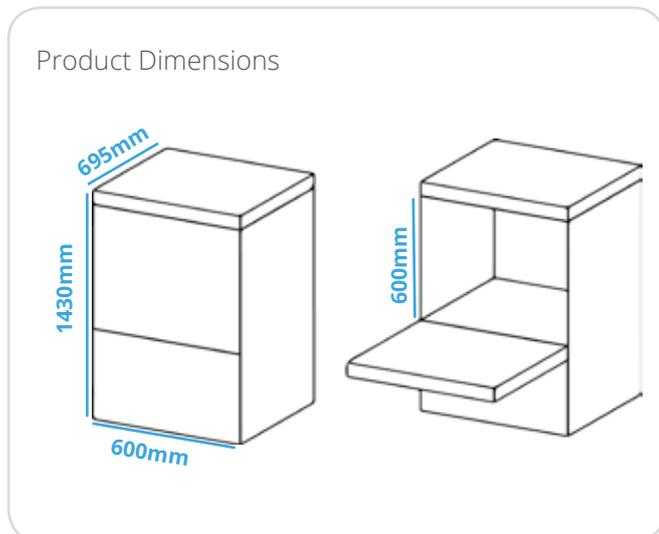

Fully Automatic Operation

Selectable 60, 90, 120, 180 or 360 seconds wash cycle with integrated electronic detergent & rinse aid dispensers as standard.

Configure To Suit Your Needs

Highly configurable solution that meets the requirements of many industries, from large restaurant and banqueting halls, through to food production & manufacturing. The MST range is based around two standard units, each configurable to include a wide range of bespoke inlet and outlet tabling solutions, through to advanced additional features including automatic pre-rinse and drying sections.

All conveyors are tailored to meet your specification and built to order. Our specialist team will consult with your business to form a bespoke recommendation to suit your requirements.

Code	Accessory	Price
KIT/CDBD	Detergent + Rinse Dispensers	£845
MZA/908	Air Drying Unit	£5,525
MAFPC	Steam Extraction Heat Pump	£8,060
MCACV	Steam Extraction Hood	£1,835

KEY FEATURES

AISI 304 All Stainless Steel Components
 Double skinned supporting frame in AISI304 stainless steel. Rounded stainless-steel tank with full width counterbalanced stainless steel door. All moving components in stainless steel.

Wide Range Of Tabling & Rollers
 Complete bespoke package with wide range of entry and exit sinks, tabling and rollers to suit your installation requirements.

TWO SPEED 2 Working Speeds
 Works to your rhythm with two changeable working speeds depending on load requirements.

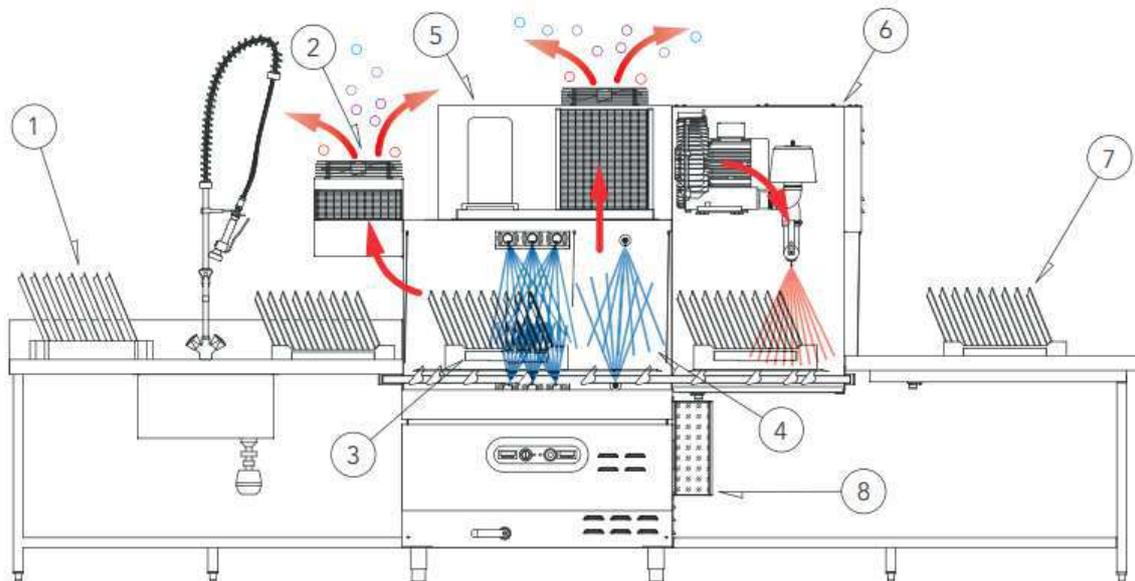

Reversible Motion
 Easily reversible forward and backward motion of baskets with rapid intervention.

Temperature Display
 Digital display of wash tank and rinsing temperatures for improved health & safety.

Intelligent Energy Saving
 Automatically detects the presence of baskets and adjusts washing, rinsing & drying accordingly.

Front Placed Lever Drain
 Easy draining and clean-down with front-facing stainless-steel gravity waste release lever.

3 Year Parts + 1 Year Labour
 Extensive UK service network with quick callout times and all spare parts held in stock.

Stage	Description
1	Bespoke single bowl pre-wash sinks with monobloc spray arm. Fabrication in AISI 304 stainless steel.
2	Steam extraction hood to ensure pleasant environment and capture lost heat for energy recovery.
3 + 4	Utensil washing machine with wash and rinse system.
5	Steam Extraction with heating pump for further energy recovery.
6	Air drying unit ensures all wares leaving the unit are ready for use.
7	Bespoke exit table on runners for storage of items ready to return to service.
8	Rinse aid and detergent pumps container kit.

NEW! 500mm 4-In-Row Glass Rack

By providing 4 rows of stacked glasses with a slight vertical lean, it manages to significantly improve wash results whilst reducing the chance of breakage for fragile items during the wash cycle.

GV50-20	500x500mm "4 In Row" Glass Rack	£79

Extended warranties must be purchased at the time of ordering. Warranty callouts must be placed by the purchaser, who may not necessarily be the end user. All prices are estimated based on prevailing rates at time of printing. Some works may be subject to a site survey. A refundable deposit will be paid for all warranty claims and service callouts, this will be returned once the warranty claim is accepted. Terms and conditions apply. See www.mach.uk.com for more information.

DESIGN & INSTALLATION

- Specialist consultants with expert knowledge of catering and hospitality industry requirements.
- Full CAD design service with all aspects covered including services & technical elevation drawings.
- All plumbing and electrical works undertaken by qualified engineers.
- Project management including third-party contractor liaison.
- Stainless steel fabrication including passthrough tabling, pre-wash sinks and storage solutions.
- Wide range of fixtures and fittings including spray arms, taps & waste management systems.
- Specialists in conveyor washer design including roller tabling.
- Food safe wall cladding and specialist flooring for washrooms.
